

## Zhejiang Dingli Machinery Co., Ltd.

### Environment, Health and Safety Statement

#### **Our Standpoint**

Zhejiang Dingli Machinery Co., Ltd. (hereinafter referred to as "the company" or "we") always puts occupational health and safety first, committed to continuously improving the level and performance of environmental, health and safety (hereinafter referred to as "EHS") management, and pursuing the concept of "zero accidents, low pollution, and sustainable development". We have formed an EHS values and management model led by the chairman from top to bottom, continuously strengthening the EHS management concept, reducing environmental, health and safety risks and impacts, ensuring occupational safety and health, promoting production development, and fulfilling social responsibilities.

This statement applies to all of our global operational bases, all employees (including full-time and part-time, labor dispatch, and temporary employees), contractors, visitors, and suppliers.

#### **Our Commitment**

Comply with applicable EHS laws and regulations in the place of operation, as well as industry standards and requirements applicable to international and corresponding countries and regions;

Formulate and implement EHS related management policies and procedures, clarify the responsibilities of each level and position, and strengthen the construction of EHS management system;

Integrate EHS risk management and assessment into all business processes, such as process risk analysis and workplace health risk assessment, and develop effective action plans and priorities;

Actively addressing climate change and striving to reduce the environmental footprint of products and services in the value chain;

Protect the environment by preventing pollution, reducing waste, and promoting conservation, including applying waste prevention measures at all levels (avoiding, reducing, recycling, and utilizing all materials);

Using natural resources with a responsible attitude, striving to minimize their impact on the environment and the entire product lifecycle;

Establish a goal of "no major safety management accidents, no major environmental pollution accidents, and a 100% compliance rate for pollution source emissions", continuously track the completion of this goal, and link it to the salary and performance of relevant personnel at all levels

of the company;

Maintain a culture of open communication and collaboration, and consider feedback and suggestions from internal and external stakeholders;

Ensure that all employees (including full-time and part-time, labor dispatch, and temporary employees), contractors, visitors, and suppliers are aware of their EHS risks in our company's business activities through training and promotion.

**Our Governance**

This statement has been reviewed and approved by the Strategy and ESG Committee to ensure its alignment with our EHS strategy. Our Board of Directors regularly reviews the company's EHS related statements and performance to ensure that relevant rules and activities are implemented and monitored.

This policy is in English. In case of discrepancies between the Chinese version of the report and the English version, the Chinese version shall prevail.
